

ANASTASIA NATHANAILIDOU

Full-Stack Web Developer

Web developer specialized designing and coding engaging visual experiences. Creative outside-the-box thinker who is driven by curiosity and striving for high-quality outcomes. Educated 3D game artist.

PROJECTS

myFlix, Single-Page Application (SPA) | [\[Code\]](#) [\[Demo\]](#)

CareerFoundry | November 2021 – March 2022

- Built REST API with Node.js and Express, using Mongoose to interact with database.
- Created non-relational database with MongoDB to store information about different movies and user data.
- Tested API endpoints with Postman, deployed API on Heroku, and wrote documentation with JSDoc.
- Developed responsive SPA with React and Redux.

Meet, Progressive Web Application (PWA) | [\[Code\]](#) [\[Demo\]](#)

CareerFoundry | February 2022 – March 2022

- Wrote serverless functions (AWS Lambda) to authenticate and authorize users with OAuth2.
- Developed responsive PWA with React that fetches events from Google Calendar API. Data visualization with Recharts.
- Followed test-driven development (TDD) approach, wrote unit and integrations tests (Jest), acceptance tests (Cucumber), and end-to-end test (Puppeteer) according to user stories.

EXPERIENCE

Professional Reorientation

January 2021 – July 2021

- Attended vocational training at SRH training center in Stuttgart from January to March to strengthen my soft skills and resilience and practiced self-reflexion.
- After orientation phase decided to study web development. Now ready and motivated to work in this field.

Break for Self-Development

May 2019 – December 2020

- Temporary jobs in the warehouse at Hugo Boss AG (06/2019 – 08/2019) and Helga Krulick Textilhandel (05/2020 – 09/2020)
- Break due to illness from September 2019 – April 2020. Undergone treatment and took time to recover.
- Worked on personal creative projects in the fields of illustration, crafting, and photography.
